

Disease Brochure

Purpose: The purpose of this project is to use research skills, writing skills, and the use of technology to create an attractive product.

You must have the following sections in your brochure:

1. A description of the disease (Introduction)
2. Method of Transmission
3. Signs and Symptoms
4. Statistics about the disease
5. Complications to the body
6. Treatment Strategies
7. Prevention Strategies
8. The cover should include the disease name, your name, period, and a picture (graphic)

Template: A Word brochure template is available to use. You are encouraged to use graphics. Search your creative side. You can use different backgrounds, fonts and styles.

This project is worth 40 points, five points for each section. A letter grade will be lowered for each day the project is late.

Due Date _____

Name of Disease _____

Description:

Method of Transmission:

Signs and Symptoms:

Statistics:

Complications:

Treatment:

Prevention:
